Past performance is not a reliable indicator of future results.

Holdings (% of net asset value)

Solaris Parks Ltd:	**40.0% (solar generation)**
Tidewater Grid Co:	**18.5% (transmission grid)**
Northwind Offshore Ltd:	**12.0% (offshore wind)**
Helios Storage Ltd:	**9.5% (battery storage)**
Cascade Hydro Ltd:	**7.0% (hydro power)**
Cash and equivalents:	**13.0%**

Portfolio manager commentary

The fund returned 3.2% net in the first nine months of 2026. Solaris Parks Ltd, the largest holding, announced a new 200 MW solar park, expected to start operating in 2028. Tidewater Grid Co benefited from a regulated tariff review. Cash remains elevated at 13% of net asset value ahead of a planned investment in battery storage.

Key risks

- Liquidity risk: the underlying assets are illiquid and redemptions may be deferred.
- Concentration risk: the largest holding is 40% of net asset value.
- Regulatory risk: returns depend on energy tariffs and grid regulation.
- Currency risk: some assets are valued in EUR and GBP and the fund does not fully hedge.
